LACASA's experienced counselors provide weekly support groups for adult survivors of domestic violence and their children. Each week participants learn about the dynamics of domestic violence and share how it has impacted their lives.

Children's support groups are held at the same time as adult groups so that every family member has a comfortable place to share their experience. LACASA's children's groups are activity based and focus on safety.

All LACASA services are free and confidential. To register for one of LACASA's support groups please call 866.522.2725.
